I also sell seed from a named variety [seed bearing parent] at \$1.00 per packet, with name of parent. The following are some of these varieties.

Bob Barker, Cavalcade, Arcturus, Chamer's Eureka, Conquistador, Eagle Rock, Eplers Gold, Golden Dream, Golden Goblin, Red Bird; Visible Yellow, Ben F., 1935 seedlings in my customers' hands took First Prizes at Boston, Red Bank and other shows; in fact, I have received some wonderful reports stating the immense size they have grown them.

### HOW TO PLANT DAHLIA SEED:

Plant in flats 18 inches square, 3 inches deep. Put good potting soil in bottom. Pack well down. Cover with rather more than one inch of mixed sand and fine peat moss. Plant seed rather less than half an inch deep. The smaller seed, cover very lightly; water well down, and place in a fairly warm shaded place. Put a piece of paper, burlap or sheet glass over to retain moisture until sprouted. Don't water heavily. Don't allow to dry out. Don't plant seed in open garden ground. When 3 or 4 inches high they should be potted. Please remember when setting out seedlings or green plants [made from root cuttings] always plant them down much deeper than they grew in pots, well above the lowest set of leaves.

My Eastern representative is Mr. Presley Caldwell, Creek Side Dahlia Gardens, Richmond Dale, Ohio. Don't fail to get his catalog.
